Dear Mr. Nelson,

In our supervisory role over the Oklahoma court system, the Supreme Court's foremost responsibility is resolving people's problems in legal disputes throughout the state. Computerized docketing and electronic storage of data aid us in the administration of justice as we serve the citizens of Oklahoma.

Copies of all information, documents and electronic court records would encompass cases dating back to 1984 in Oklahoma and Tulsa Counties. During the intervening 25 years, the other 75 counties have moved to digital record keeping. This literally amounts to millions of pages.

In summary, everything you have requested can be readily accessed through oscn.net or is available on a case-by-case basis at any court clerk's office in each of the courthouses in Oklahoma. We direct you to oscn.net for full and complete open access to court information.

Sincerely yours,

A handwritten signature in black ink, appearing to read "J. Edmondson".
